Sushi Rice

Makes 4 cups – 1 cup per adult or ½ cup per child

Ingredients

Sushi Rice

1 ½ C	uncooked sushi rice
-------	---------------------

2 C	water
-----	-------

½ C	sushi seasoning*
-----	------------------

Sushi Seasoning

½ C	rice vinegar
-----	--------------

1 T	sugar
-----	-------

1 t	salt
-----	------

Instructions

Place sushi rice into a bowl or pot. Fill with water until it just covers the rice. Using your fingertips gently agitate the rice, releasing the starch (about 30 seconds). Using a fine mesh strainer, carefully drain the water making sure you don't lose any rice. Repeat this process one more time, you should notice the water is less cloudy.

Once rinsed, combine rice in a large pot with water. Bring water to a boil, stirring occasionally, then reduce heat to low, cover and cook for 20 minutes. After 10 minutes, turn off the heat and let the rice sit covered and undisturbed for 10 minutes. Rice should be tender and water should be fully absorbed. Do not scrape off any rice that is stuck to the bottom of the pot, only use the rice that comes out easily.

To make the seasoning: combine rice vinegar, sugar and salt in a bowl. Whisk until the sugar dissolves. Fold into the rice until all of the liquid is absorbed. Cover 1 cup of rice per adult and/or ½ cup per kid in plastic wrap. Keep wrapped and leave at room temperature until it's time to roll the sushi. Enjoy!

Sushi Rolls

California Roll (Uramaki)

Take 1 full sheet of nori and lay it across the mat with the lines of the nori parallel to the lines of the mat, rough side up. Lightly dampen hands in a bowl of water and grab ½ a cup of rice. Flatten rice across the nori using your hands and fingertips to gently spread the rice out. Be sure not to overfill with rice. Once evenly spread out, flip the riced nori sheet over so that the rice is on the outside.

Place cucumber, avocado and crabmeat onto the nori with spicy mayo (if desired). Be sure to lay ingredients evenly from end to end to create a full sushi roll that doesn't sag when cut. Using the bamboo mat as your guide, wrap tightly and roll the sushi into a long cylinder. Apply light pressure to secure the roll in place.

Sprinkle outside with panko breadcrumbs or sesame seed. Cut the roll into 6 or 8 pieces with a very sharp knife, always starting in the middle of the roll.

Veggie Roll (Maki)

Take 1 full sheet of nori and lay it across the mat with the lines of the nori parallel to the lines of the mat, rough side up. Lightly dampen hands in a bowl of water and grab ½ a cup of rice. Flatten rice across the nori using your hands and fingertips to gently spread the rice out. Be sure not to overfill with rice. Leave 1" at the top of the nori sheet exposed to create a seal. Be sure not to overfill with rice.

Make a small trough with your index finger in the middle of your rice. Lay desired sushi filling strips in the trough lengthwise. Using the bamboo mat as your guide, wrap tightly and roll the sushi into a long cylinder. Use a bit of water to dampen the exposed end of the nori sheet to seal roll and apply light pressure to secure the roll in place.

Cut the roll into 6 or 8 pieces with a very sharp knife, always starting in the middle of the roll. Serve rolls accompanied by soy sauce, pickled ginger and wasabi. Enjoy!
